HONEYWELL SEARCHLINE EXCEL[™] EDGE

Push your detection to the Edge

The Searchline Excel™ Edge Flammable
Hydrocarbon gas detector delivers long-range
coverage and protection for perimeter and
fence-line monitoring.

LONG-RANGE PERIMETER MONITORING IN HARSH CONDITIONS

Designed for long-range perimeter and fence line monitoring applications, the Searchline $\mathsf{Excel}^\mathsf{TM}$ Edge helps protect your people, facilities and processes from combustible gas leaks. When mounted at the edge/perimeter of your facility, it provides long-range monitoring and reliable detection in harsh and changing environments for protection and peace of mind.

ELEVATE YOUR ENVIRONMENTAL DUE DILIGENCE

The Searchline $\operatorname{Excel}^{\mathbb{M}}$ Edge's innovative optical gas detection capabilities cover a longer range and see through even thick fog better than any other open path gas detectors whether NDIR or laser-based.

FEATURES AND BENEFITS

RELIABLE DETECTION

Fast response to flammable
Hydrocarbon gas even in low visibility
conditions. Advanced diagnostics
including window clarity and alignment
accuracy to enable maximum uptime
and continuous site protection.

EASY TO USE

Honeywell Fixed Platform Universal Mount and advanced alignment scope makes for easy mechanical installation. Incorporates Bluetooth® connectivity for simplified, non-intrusive set-up and maintenance. Just pair the Searchline Excel™ Edge with our intrinsically safe, ruggedized mobile phone; then use the Honeywell Fixed Platform App to interact with the detector.

HEAVY DUTY OPERATION

Operates in harsh environments to maintain coverage. Advanced transmitter and receiver optics means that monitoring continues in thick fog long after other detectors cease to provide coverage.

AT-A-GLANCE INSTRUMENT STATUS

High Visibility LED HALO ring provides clear indication of device status. Automatic reporting with full logging of alarms, events and maintenance actions.

APPROVALS

Global hazardous area and performance approvals include SIL2, ATEX, IECEx, cULus, FM, INMETRO, CCCF, Ex d, Zone 1, ClassII/III and ANSI/FM/IEC/EN60079-29-41.

LONG-RANGE MONITORING

Longest range site detection for fence line/perimeter monitoring up to 330 meters (1082 feet). Flat response over a range of target gasses; performance approved.

MULTIPLE OUTPUTS

Multiple outputs including 4-20mA, Relays, HART®, Modbus and Bluetooth® communication.

Easily integrate the Searchline Excel™ Edge into your existing network.

Honeywell Searchline Excel™ Edge Technical Specifications See product manual for full specifications.

Searchling Even MEdge will recogned to a wide range of Lludge carbon Coope as most of the
Searchline Excel™ Edge will respond to a wide range of Hydrocarbon Gases as most of these gases absorb IR in the required wavelengths: Methane¹.², Ethane¹, Propane¹.², Butane¹, Pentane¹, Hexane, Ethylene¹, Propylene¹; ¹FM Performance Approved; ²DNV approved
0–5 LEL.m; for ppm.m equivalents see manual
Low 1 LEL.m; High 3 LEL.m; for ppm.m equivalents see manual
